Landscape to Still Life Oil Paintings

Felicity Starr

12 - 24 April 2022

Hello!

It is with great pleasure that I bring together this collection of oil paintings, to celebrate all that is beautiful. My paintings are a "homage to mother nature" and capture the elegance of still life. I hope this collection leaves you feeling uplifted and inspired.

I prefer to paint in a "painterly" fashion with visible brush strokes, alla prima (wet paint on wet paint). I also use lots of paint to create a textured surface known as impasto painting. I try really hard to create a high level of realism as I want to portray what I'm painting in all its beauty. I love to colour match using the same colour paint as the object that I'm painting. However, I'm often torn between colour matching and wanting to create my own colour palette in design.

One of my art heroes, David Shevlino described my style best; "Felicity has a very straightforward way of painting her subjects. Her vision is infused with both uniqueness and exuberance."

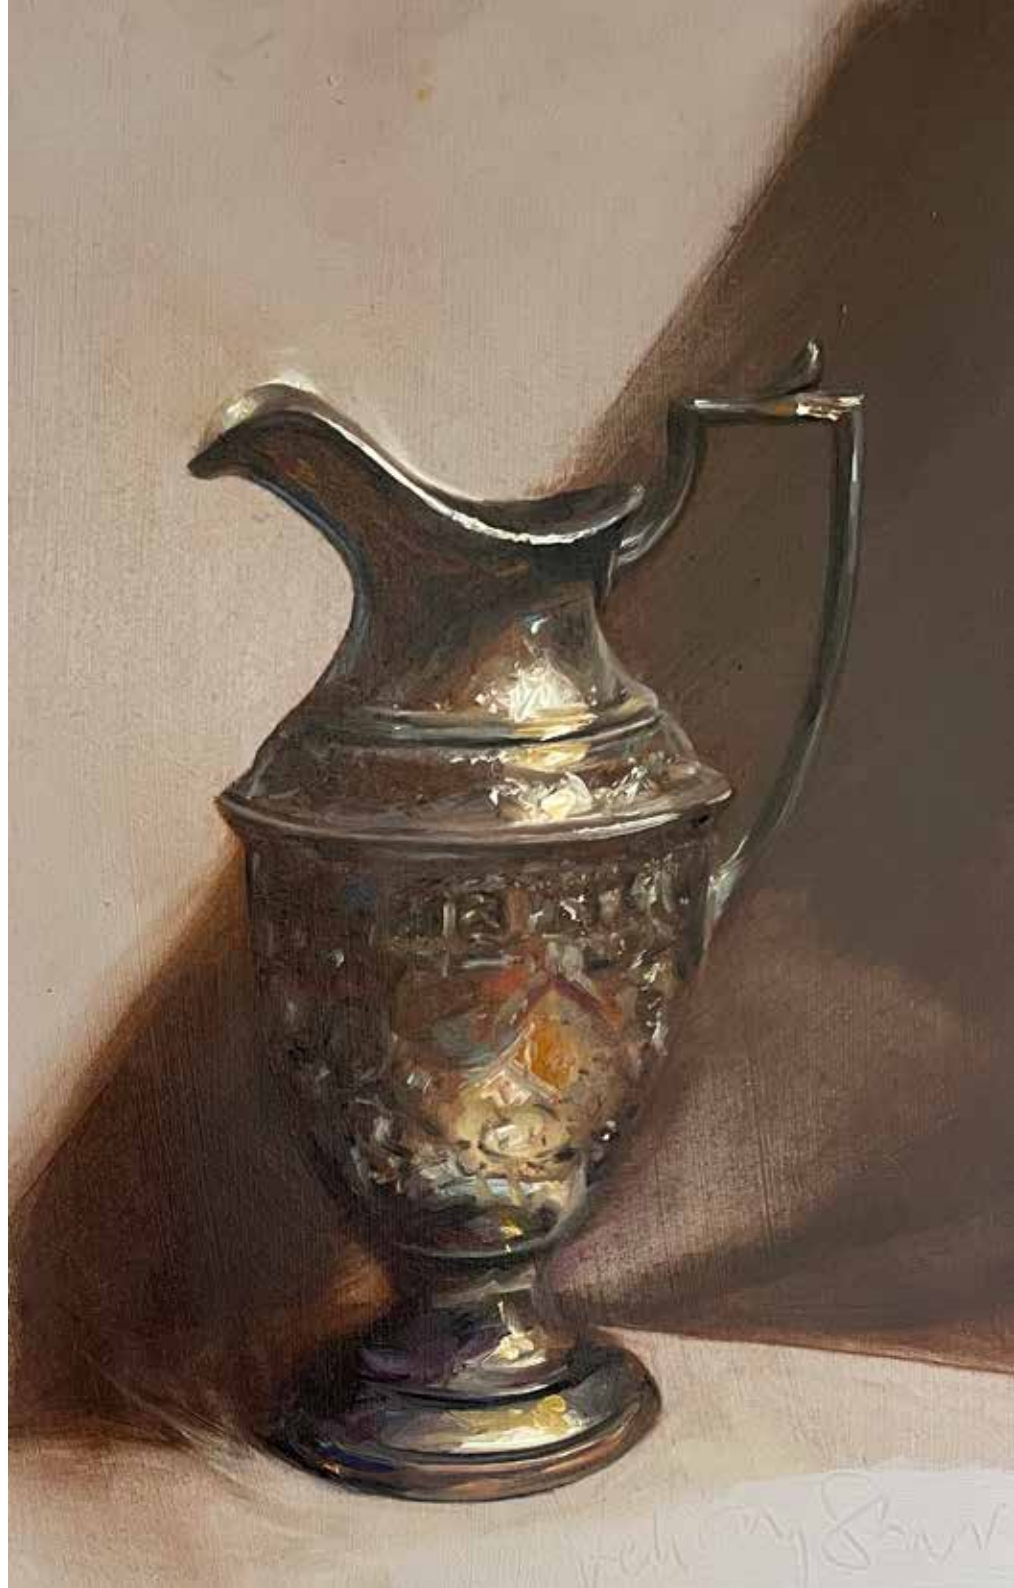

As a largely self taught artist I have developed with practise, painting almost daily. In terms of what I choose to paint it's all heart! If I like something I'll probably paint it. Nature has been my greatest teacher, always showing me new ways to appreciate and observe life, which in turn I try to document. From animals to plants, landscapes to seascapes, anything that the earth creates I find fascinating and captivating. Nature can be any shape, size or colour and yet always magical.

I strive to create paintings which celebrate life and excite the soul. My goal is for people to feel good when looking at my paintings. I hope you enjoy and thank you!

Kind wishes,

Felicity Starr

Thank you to the Fountain Gallery for giving me the opportunity to host my first solo show. To my family and friends for the boundless love and support and to my wonderful husband who helps create the time for me to paint.

Thank you!
